

keyboard_int_disabler

keyboard_int_enabler

kbc_configure

```
graph LR; A[keyboard_int_disabler] --> C[kbc_configure]; B[keyboard_int_enabler] --> C;
```

The diagram illustrates a configuration flow. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'keyboard_int_disabler' and the bottom box contains 'keyboard_int_enabler'. On the right, there is a gray rectangular box with the text 'kbc_configure'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both the disabler and enabler functions are used to configure the keyboard controller.
